

Risk Assessment General Notes

- **The Management Committee carry out annual site surveys and audits of the buildings, equipment, trees and access routes. This includes a 5-yearly check by the Fire Service, annual site audits for Health and Safety, including fire and gas equipment inspections. Regular inspection and testing of electrical services and equipment are carried out.**
- **It is the responsibility of all groups using the campsite to carry out a risk assessment for the activities that they wish to undertake before making use of the site and its facilities.**
- **A volunteer warden who is on duty at the weekend will carry out a site inspection in the camping season. A member of the Management Committee may also carry out an inspection.**
- **Users of the Warren and Mowgli buildings are not allowed to use candles, oil or gas stoves within the buildings and guidance is provided on fire safety procedures.**
- **The hot water from the taps is delivered at a high temperature to avoid any problems with bacteria. Please advise users to mix hot and cold in the basins and sinks and check the water temperature of the showers before use.**
